The Trevoli CM range is ideal for domestic water supply, providing mains pressure for homes ranging from small single level to large multi-level homes and lifestyle blocks.

Fitted with an electronic automatic constant pressure control system (provides constant pressure at constant flow).

Starts automatically when the tap is turned on and stops automatically when the last tap is turned off, operating constantly from low flow to full flow.

**FEATURES**

**Extremely quiet:**
The pump has a very quiet operation.

**Robust design:**
All wetted parts are made from high quality corrosion resistant stainless steel to ensure the highest life possible.

Including high quality low noise bearings, stainless steel pump housing, motor shaft, impellers and intermediate chambers.

**User-friendly interface:**
The pump features a user-friendly interface with LED indicators displaying power status, pump running and alarm indication.

**Protective functions:**
The pump has a range of protective features such as; dry run protection and thermal overload protection.

**Easy installation:**
The multi-stage pump is a compact solution, which makes it suitable for most installations. Simply connect the inlet and outlet and you have a fully operational household pressure pump.

**APPLICATIONS**

- Mains boosting
- Household water supply
- Light industrial/Farm use.
**Mains voltage:**
240v 50Hz

**Enclosure class:**
IP55

**Insulation class:**
F

**Duty rating:**
Continuous

**Liquid temperature range:**
0-70° C
