Home 11A	.16	.12	20/25mm	1	220-240	5mm	\$320

DESCRIPTION

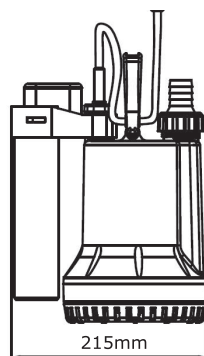

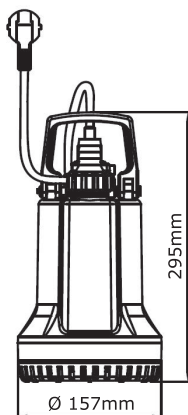

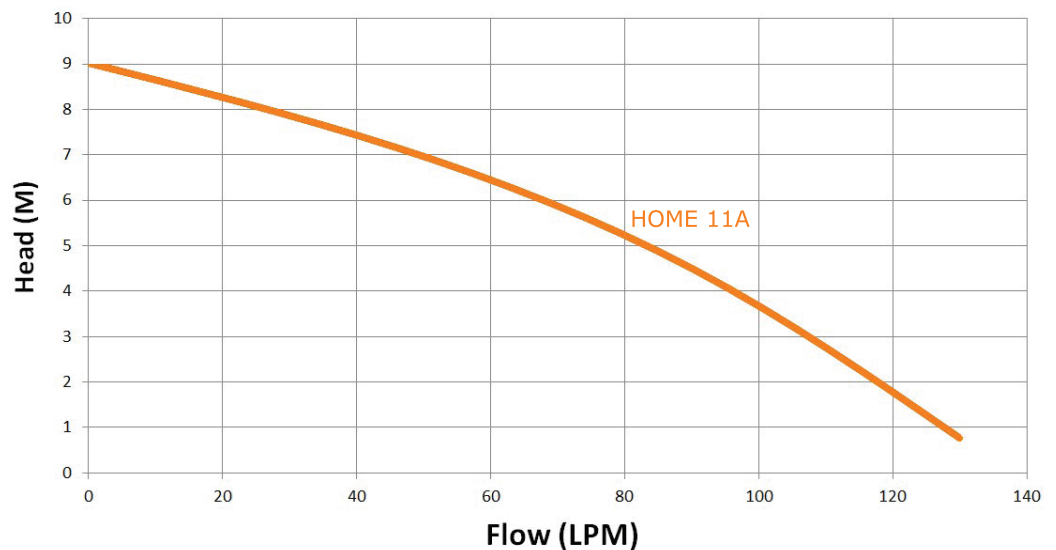

The Trevoli Home 11A submersible pump is ideal for clean and salt water transfer, circulation and emptying sumps and ponds. Its small size and integrated float switch makes the pump well suited for small sumps. Constructed of corrosion resistant materials and featuring a double mechanical seal in an oil chamber, the Home 11A can withstand harsh conditions.

FEATURES

- * Constructed from super strong ABS resin
- * Turns on at 145mm and off at 70mm
- * Double mechanical seal
- * Large carry handle
- * Max Immersion Depth-6m
- * 10 metre cable with 3 pin plug

MOTOR FEATURES

- Ph Level of 6-8
- Rated for continuous use
- Thermal Overload motor protection
